

SERVICE CATALOG

Engineering and spare parts for your process plant

Specialized technical advisory and supply of spare parts and custom components for the aggregates extraction sector. Reliable, competitive solutions to maximize the uptime of your facilities.

SPARE PARTS

Supply of spare parts and components

We guarantee the supply of parts for process equipment, with reliable and competitive solutions that maximize your plant's uptime.

ENGINEERING

Basic engineering and project consulting

Technical solutions built on real plant experience: project development, facility optimization and fast problem-solving.

SOLAR PV INSTALLATIONS

We design and implement photovoltaic energy solutions tailored to your industrial operation: technical study, sizing, equipment selection, permitting and on-site execution. Cut energy costs and gain independence from the electricity market.

ELECTRICAL DEPARTMENT

Custom electrical engineering, from design to field maintenance. Development and manufacturing of electrical panels and systems, plus process automation to optimize your operation's performance.

Engineering Services

- ◆ Conceptual and basic engineering
- ◆ Technical feasibility studies
- ◆ Preparation of technical specifications
- ◆ CAPEX and OPEX estimates
- ◆ Process and facility optimization
- ◆ Development of drawings and technical documentation
- ◆ Technical support for industrial and mining projects

PRODUCT CATALOG

Spare parts for quarries and mines

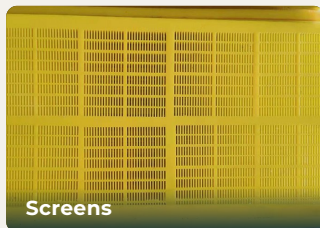

We manufacture custom spare parts as a reliable alternative to leading brands in the sector, with the same technical standards and better cost optimization. We import directly from manufacturers we have strong relationships with, and hold national distribution agreements for highly competitive lead times.

Pumps

Hydrocyclones

Screens

Vibration Motors

Dewatering Screens

Cable Reels

Discharge Hoses

Flocculation Equipment

Clarifier Tanks

Motors

Rubber Linings

Custom Parts

Polyethylene

Valves

Sensors

Hydroclassifiers

Washing Cylinders

Equipment Import

CUSTOM MANUFACTURING

Custom parts as a reliable alternative to leading brands in the sector, with the same technical standards and better cost optimization.

DIRECT IMPORT

Strong relationships with international manufacturers, ensuring quality and competitive prices on every order.

NATIONAL DISTRIBUTION

Agreements with national partners that let us offer highly competitive delivery times across Spain.

— We don't just supply — we walk with you every step of the way —
